

## What You Can Do

Print this brochure and distribute it everywhere:

**Feed Stores:** distribute and ask some really tough questions - get it across to them you will not buy GE Alfalfa Tack Stores  
Horse Organizations  
Stables  
Breeders  
Local Clubs  
Horse Shows and events  
Friends  
Put it out on the Internet

## Learn more about GM feeds and current issues

Below are great links to find good information on GM everything! Do a little research and learn why so many thousands of people from all walks of life are asking tough questions about GM/GE foods, crops and animals.

**CBAN**  
Canadian Biotechnology Action Network  
[www.cban.ca](http://www.cban.ca)

"As horse owners, breeders and trainers, it is our job and responsibility to maintain the highest standard of excellence in care and feeding of our animals. We are slowly being stripped of our freedom to choose what we feed our equine friends.

Please stand up against this unfair, untested, deregulated crop, and keep the momentum moving within your circle of friends and influence.

Together, we all can make a difference, one bale at a time!"

April Reeves
